KAMRAN MEMON

Lead Frontend Engineer

Creating a web platform today is about more than functionality, it must be performant, accessible, and secure across various browsers and devices. In my role as a Lead Frontend Engineer, I oversee every aspect to ensure the site not only performs well and welcomes all users but is also responsive and built for scalability as it grows.

EXPERTISE

Frontend Development 9+ Years

Backend Development 6+ Years

ACHIEVEMENTS

- Enhanced application performance by optimizing Vue.js components, resulting in a 20% reduction in load time.
- Received the 'Impact Dev' recognition twice at Aventior for outstanding contributions to the frontend team and project success.
- Mentored over 10 junior developers, providing guidance on best practices and sharing insights on my blog and LinkedIn, building a professional network of over 2000 followers.
- Featured in a blog post by HyperHire's CEO for my significant contributions to the success of their platform. Read the full Blog here.

CERTIFICATIONS

- Vue - The Complete Guide (incl. Router & Composition API)
- Master the Coding Interview: Data Structures + Algorithms
- The Complete JavaScript Course 2024: From Zero to Expert!

TECHNICAL SKILLS

*The number beside each tool or language indicates years of work experience.

html 8 | css 8 | scss 5 | tailwind 5
